

Mudassar Memon

FULL STACK SOFTWARE ENGINEER

mudassar95memon@gmail.com > 631-645-1065 > [LinkedIn](#) > [Github](#) > [Portfolio](#) > Port Washington, NY

Civil Engineer turned Software Engineer. Over 5 years of expertise in construction project management. Passionate about leveraging my engineering and project management background to implement software solutions that address real-world challenges, within the construction sector and beyond.

LANGUAGES: React-Redux, JavaScript, Ruby, Python, SQL, HTML, CSS **DATABASES:** PostgreSQL, MongoDB, SQLite
FRAMEWORKS: Ruby on Rails, Express.js, Node.js **TOOLS:** AWS, ActiveRecord, Mongoose, JBuilder, Git
OTHER: Project Management, Test Driven Development (TDD), Object Oriented Programming (OOP), Pair Programming

PROJECT EXPERIENCE

Officebook >> [React-Redux](#), [JavaScript](#), [Ruby](#), [Rails](#), [ActiveRecord](#), [PostgreSQL](#), [AWS](#), [JBuilder](#), [BCrypt](#), [HTML](#), [CSS](#) [Github](#) > [Live](#)
A full stack web application clone of Facebook with a dynamic user interface and a theme inspired by NBC's, 'The Office'.

- Implemented robust backend using **Ruby on Rails**, **PostgreSQL**, and **JBuilder** to allow seamless integration with frontend
- Created standardized and predictable routes in adherence to **RESTful API** principles to execute associated **CRUD** actions
- Incorporated a highly secure backend using **BCrypt** password encryption, backend validations, constraints and pre-authorizations, **CSRF**, and session-based authentication with the ability to conveniently persist login status
- Designed **React** frontend, emphasizing **DRY**, modular, and reusable code, and efficient state management with **Redux**

TuneUp >> [React-Redux](#), [JavaScript](#), [Express.js](#), [Node.js](#), [AWS](#), [MongoDB](#), [Mongoose](#), [Passport.js](#), [HTML](#), [CSS](#) [Github](#) > [Live](#)
A digital hub designed for musicians seeking local counterparts to form bands or engage in jam sessions.

- Engineered robust backend using **Express.js** framework and various tools, such as **express-validator**, **express-router**, in addition to **MongoDB** and **mongoose** for data storage and manipulation
- Secured backend using **Passport.js** and **JWT**-based authentication to provide a safe and reliable user experience
- Integrated a dynamic **React** frontend, with **Redux** state management and **Google Maps API** to provide a vibrant and engaging experience for users to create, manage, and search events based on proximity with the ability to sort by date
- Streamlined development process and enhanced team collaboration by leveraging my project management expertise, maintaining clear communication, excellent **git** workflow with a team of 5 engineers and ensuring timely delivery

Binary Search Tree Visualizer >> [JavaScript](#), [HTML](#), [CSS](#) [Github](#) > [Live](#)
An interactive visual demo aimed at teaching complex data structures and algorithms in a simple way.

- Built single-page web application using **JavaScript** and **HTML** canvas to provide a visual sandbox learning environment

WORK EXPERIENCE

Memolope LLC >> *Full Stack Web Developer* >> *New York, NY* **April 2021 – present**

- Developed **MERN** full stack web applications for various local businesses as freelance contractor

EW Howell LLC >> *Project Manager* >> *New York, NY* **May 2016 – May 2022**

- Managed construction of NYCSCA schools, including PS 338, PS 419, and PS 464, with project budgets from \$60M-\$80M
- Proficient in various aspects of construction management, from interpreting construction drawings and specifications to leading subcontractors and overseeing up to 100+ personnel on-site daily.
- Fulfilled construction processes, including RFIs, contract negotiations, bids and estimations, change orders and payments, and project closeouts. Proficient in material procurement, safety standards, QA/QC, and LEED guidelines.

EDUCATION

App Academy >> *Full Stack Software Engineer* >> *New York, NY* **October 2023**

Stony Brook University >> *Bachelor of Science in Civil Engineering* >> *Stony Brook, NY* **May 2017**
